Where is the Key to Performance?

*Presented by John Tooley of John Tooley LLC*

*Original Air Date: Tuesday, December 17th, 2019*

This session will help each of us find that illusive, if not lost, key to those things that lead to high performance. Once found, the key will allow us to alter our actions and work with others to alter theirs, to take performance to a new level. A truth is, having more information often doesn’t translate into different action. We will discuss turning knowledge into action. Have you ever wondered why so much training, consulting, research, and so many books and articles produce so little desired performance? Why it is, that owners, managers and supervisors report being enlightened by presentations at conferences and trainings, but not much happens in their company? Don’t miss this webinar – let’s find the key!

Learning Objectives:

1. Learn where to find the key
2. Learn what’s missing between enlightenment and action
3. Learn the three laws of performance
